

Characteristics

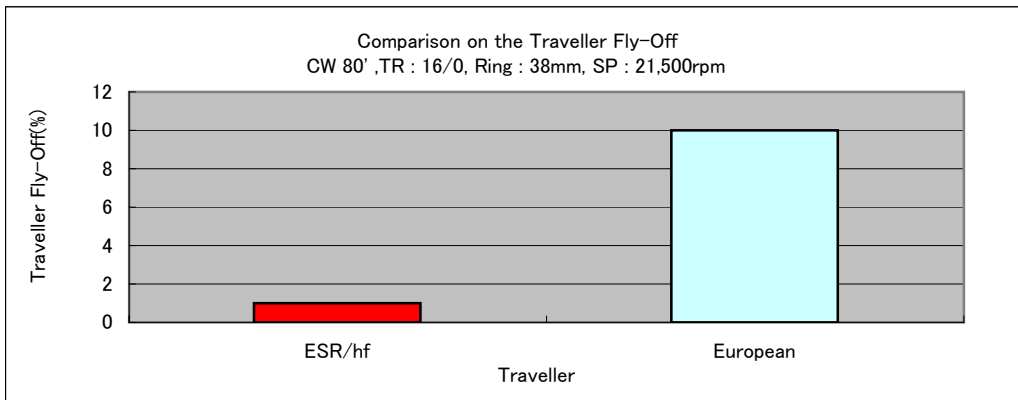

Application

Cotton Ne 40-100 (Compact Yarn) with High Spindle Speed

Characteristics

Specially developed for Compact's fine - medium count. The optimum heat treatment and profile have been adapted on the raw material, which enables short time start up after the traveller changing, extension of the service life time, and very less traveller fly-off with the high speed of over 20,000rpm.

Performance

CW: Cotton Warp yarn

General Practical Use

Yarn(Ne)	Ring diameter (mm)	SP(rpm) (MAX)	Traveller	Traveller Life(days)	
				ESR/hf	Competitor
CW60	36	21,700	16/0	20	5
CW60	36	20,800	14/0	14	11
CW60	36	23,000	14/0	15	12
CW60	38	23,000	17/0	12	10
CW80	36	21,300	18/0	15	10
CW80	36	22,800	16/0	12	4
CW80	38	20,400	16/0	22	10
